Affiliated to Dr. A.P.J. Abdul Kalam Technical University, Uttar Pradesh

Five Days Faculty Development Program on Personality Development (Capacity Building)

06-06-2022 to 10-06-2022

Organised by
Department of Applied Sciences & Humanities

ABOUT THE COLLEGE

Eshan College of Engineering was established in 2009 and is spreaded over 11.52 acres. Eshan College of Engineering serves those students who are interested to pursue their careers in Engineering. It was established with the aim to constantly develop the excellence of education, raise the aptitude of our students, to facilitate & embark upon a successful career. It not just caters the academic excellence but also empowers its students with immense exposure, qualified pedagogy, excursions, competitions, internships, live projects, and extracurricular activities. It believes in the holistic development of its students rather than one-dimensional development.

ABOUT DEPARTMENT

Applied Sciences & Humanities is one of the indispensable departments of any engineering institute, which plays a vital role in teaching basic science courses as prescribed by the curriculum of the university in the 1st year of the engineering program.

The department holds under its canopy four branches of study namely Physics, Chemistry, Mathematics and English. Highly qualified, dedicated and well-experienced faculty members of this department have made persistent and strenuous efforts. It also promotes the implementation of practical aspects of applied sciences and humanities in order to build a solid foundation as part of the engineering education.

ABOUT FDP

Personality development courses aim to enhance communication and interpersonal skills in individuals. These types of programmes are popular and sought after as they provide candidates with soft-skills and techniques that will give them a competitive edge during placement and interview processes. Students are becoming more and more conscious of the importance of developing their personality since this enables them to make a good impression on others and develop the skills, they need to build a successful career.

OBJECTIVE

The current course focuses on preparing students for entering the workforce. In some cases, lack of confidence can prevent an individual from communicating effectively and demonstrating their professionalism. The course will focus on learning and applying the use of intuitive, logical and critical thinking, communication and interpersonal skills, not limited to cognitive/creative skills. The development of these skills and behavior sets will help improve employability.

Five Days Faculty Development Program on Role of Artificial Intelligence in Future

20-12-2021 to 24-12-2021

Organized by
NISHTYA INFOTECH PVT. LTD. AGRA

In Collaboration with
Eshan College of Engineering, Mathura

ABOUT THE COLLEGE

Eshan College of Engineering was established in 2009 and is spreaded over 11.52 acres. Eshan College of Engineering serves those students who are interested to pursue their careers in Engineering. It was established with the aim to constantly develop the excellence of education, raise the aptitude of our students, to facilitate & embark upon a successful career. It not just caters the academic excellence but also empowers its students with immense exposure, qualified pedagogy, excursions, competitions, internships, live projects, and extracurricular activities. It believes in the holistic development of its students rather than one-dimensional development.

ABOUT NISHTYA INFOTECH

At Nishtya Infotech, we understand the challenges businesses face in the ever-changing digital landscape. That's why we offer a wide range of services and solutions to help you stay ahead of the curve and achieve your marketing objectives. Our team of experienced professionals is committed to delivering the highest level of service and support to help you succeed in the digital world.

We are a network of internet companies operating in different domains and thus creating an ecosystem, domains include education, recruitment, media, financial consulting, fashion and related services.

ABOUT FDP

The idea of this FDP is to make the participants aware of the AI field. The FDP will comprise of the essential theory with hands-on experiments on different simulation software by the experts from academic institutions to improve the understanding of this highly technical field.

This will, in turn, improve the quality of the teaching which will motivate the students to take up the challenges in this interdisciplinary field.

OBJECTIVES

To learn the basics of Artificial Intelligence and various ways in which Artificial Intelligence is related to the real world.

To learn about Python basics and tools used to run the Python code.

To learn about Machine Learning using Google Colab software and analyse the data using / Python Programming Language.

To learn practical of Machine Learning and Deep Learning with MATLAB

Five Days Faculty Development Program on Effective Team Building

07-12-2021 to 11-12-2021

Organised by
Department of Applied Sciences & Humanities

ABOUT THE COLLEGE

Eshan College of Engineering was established in 2009 and is spreaded over 11.52 acres. Eshan College of Engineering serves those students who are interested to pursue their careers in Engineering. It was established with the aim to constantly develop the excellence of education, raise the aptitude of our students, to facilitate & embark upon a successful career. It not just caters the academic excellence but also empowers its students with immense exposure, qualified pedagogy, excursions, competitions, internships, live projects, and extracurricular activities. It believes in the holistic development of its students rather than one-dimensional development.

ABOUT DEPARTMENT

Applied Sciences & Humanities is one of the indispensable departments of any engineering institute, which plays a vital role in teaching basic science courses as prescribed by the curriculum of the university in the 1st year of the engineering program.

The department holds under its canopy four branches of study namely Physics, Chemistry, Mathematics and English. Highly qualified, dedicated and well-experienced faculty members of this department have made persistent and strenuous efforts. It also promotes the implementation of practical aspects of applied sciences and humanities in order to build a solid foundation as part of the engineering education.

OBJECTIVE

Productivity enhancement is vital to the growth of individuals and organizations. To be able to achieve more in the given time requires not just technical skills but also a set of soft skills. An amalgamation of these skills can lead to better control over various life situations and ensure goal achievement in personal and professional life. A basic understanding of concepts related to personal, interpersonal and group dynamics ensures improving one's capacity for better and smarter work. This FDP aims at developing an understanding of the concepts and skills that are essential for productivity enhancement and effective team building.

COURSE CONTENT

- ☐ Team building ☐ Conflict management ☐ SWOT analysis
- ☐ Communication skills ☐ Work-life balance ☐ Time management
- ☐ Stress management ☐ Creativity ☐ Effective planning
- ☐ Yoga for physical and mental wellness
- ☐ Training and learning methods and resources

Five Days Faculty Development Program on APPLICATION AND DATA SECURITY 19-07-2021 to 23-07-2021

Organized by
Secure Hack, Mohali
In Collaboration with
Eshan College of Engineering, Mathura

ABOUT THE COLLEGE

Eshan College of Engineering was established in 2009 and is spreaded over 11.52 acres. Eshan College of Engineering serves those students who are interested to pursue their careers in Engineering. It was established with the aim to constantly develop the excellence of education, raise the aptitude of our students, to facilitate & embark upon a successful career. It not just caters the academic excellence but also empowers its students with immense exposure, qualified pedagogy, excursions, competitions, internships, live projects, and extracurricular activities. It believes in the holistic development of its students rather than one-dimensional development.

ABOUT SECURE HACK

SecureHack, a Ferrissoft Technologies incorporate information Technology Company in business for last 10 years, since 2012. Moreover, SecureHack offers managed services, optimize and continuously improve security programs.

We work with our clients as a cloud, data and security advisers and consultants, we work with their teams or work as part of their teams. We place consultants as the permanent employees of our clients. The research and development centre offers in depth-study on various Cyber Security Threats/Hacking trends compliances like SOC, HIPAA, PCI and so on.

SecureHack offerings with managed services support and powered by SecureHack Cyber Threat Intelligence (CTI), devices the ability to measure, optimize and continuously improve security programs.

PREAMBLE

The aim of this program is to promote research aspects in internet security, familiarize with tools available for network scanning (anti-virus, anti-spam and anti-spyware scans), identify and synthesize needs for internet security techniques (firewall, honeypots etc.), share information and practical awareness for data and system protection from cyber-attacks (prevent, detect and respond) etc. The FDP will start with an overview of data security. Information security and cryptography aspects to help the audience understand importance of these aspects in real life scenarios. This FDP is planned into two parts: technical session and hands-on session. The technical session part of the FDP will focus on the most challenging contemporary issues in data security (cyber threat, cyber incidents, cyber threat sharing, cyber technology evolution etc.)

ABOUT NISHTYA INFOTECH

At Nishtaya Infotech, we understand the challenges businesses face in the ever-changing digital landscape. That's why we offer a wide range of services and solutions to help you stay ahead of the curve and achieve your marketing objectives. Our team of experienced professionals is committed to delivering the highest level of service and support to help you succeed in the digital world.

We are a network of internet companies operating in different domains and thus creating an ecosystem, domains include education, recruitment, media, financial consulting, fashion and related services.

OBJECTIVE

Since last few decades, the importance of data analysis and interpretation has increased manifold in academic and practitioner domains. However, there exists a number of issues that inhibits the application of research methods and techniques ranging from problem identification to the type of research techniques required to analyse the data and the interpretation of the results so achieved. Therefore, the prime objective of this programme is to tackle these issues by equipping the programme participants with the requisite knowledge for identifying the right research problem, selection of adequate data analysis techniques, application of those research techniques, and interpretation of results.

TOPICS TO BE COVERED

1. Confirmatory Factor Analysis / 2. Structural Equation Modelling / 3. Introduction to Time Series / 4. Time Series Decomposition / 5. Exponential Smoothing Methods / 6. Stationarity, ACF, PACF / 7. Box-Jenkins Methodology / 8. Seasonality in Time Series

ABOUT DEPARTMENT

Applied Sciences & Humanities is one of the indispensable departments of any engineering institute, which plays a vital role in teaching basic science courses as prescribed by the curriculum of the university in the 1st year of the engineering program.

The department holds under its canopy four branches of study namely Physics, Chemistry, Mathematics and English. Highly qualified, dedicated and well-experienced faculty members of this department have made persistent and strenuous efforts. It also promotes the implementation of practical aspects of applied sciences and humanities in order to build a solid foundation as part of the engineering education.

ABOUT FDP

AICTE have been working on value-based education for value-based living for the past several years. In the last 3 years, we have come across a simple, extremely effective and promising content and methodology. It is called "Universal Human Value (UHV)".

The content is universal, rational, verifiable and leading to harmony – and we have seen almost immediate and positive indicators of self-development as well as institutional progress. The steps taken by the All India Council for Technical Education in the direction of imbibing universal human values education among teachers and students have proved to be transformational.

OBJECTIVES

The objective of this FDP was comprised into four different levels along with Value Domain & Skill Domain:

- Harmony in Individual Level
- Harmony in the family
- Harmony in the Society
- Harmony in nature and cosmos

Highly qualified, dedicated and well-experienced faculty members of this department have made persistent and strenuous efforts. It also promotes the implementation of practical aspects of applied sciences and humanities in order to build a solid foundation as part of the engineering education.

ABOUT FDP

Day to day our life is very busy. Employee in the organization remains busy to handle various works. To handle the work efficiently and smoothly, employee need certain exercise. College teaching community and administrative staff are also not exceptions to this. So our college has taken initiative to organize five day faculty programme on "Stress & Time Management, Focus: Managerial Effectiveness"

In today's competitive world every business has multiple targets to achieve in a limited time frame. This is where time management comes in handy. The people responsible for performing these tasks need proper planning which can be done by prioritising the tasks at hand as to what is urgent and what is not. The goals should be realistic and not overly ambitious because there should be enough time to deliver high quality product or service. Never meeting deadlines can discourage your employees as well so be sure to set reasonable goals and communicate to your team exactly what needs to be accomplished to meet them.

Applied Sciences & Humanities is one of the indispensable departments of any engineering institute, which plays a vital role in teaching basic science courses as prescribed by the curriculum of the university in the 1st year of the engineering program.

The department holds under its canopy four branches of study namely Physics, Chemistry, Mathematics and English. Highly qualified, dedicated and well-experienced faculty members of this department have made persistent and strenuous efforts. It also promotes the implementation of practical aspects of applied sciences and humanities in order to build a solid foundation as part of the engineering education.

ABOUT FDP

An Environmental Management System (EMS) is a framework that helps an organization achieve its environmental goals through consistent review, evaluation, and improvement of its environmental performance. The assumption is that this consistent review and evaluation will identify opportunities for improving and implementing the environmental performance of the organization. The EMS itself does not dictate a level of environmental performance that must be achieved; each organization's EMS is tailored to its own individual objectives and targets.

COURSE CONTENT

- Reviewing the organization's environmental goals;
- Analyzing its environmental impacts and compliance obligations (or legal and other requirements);
- Setting environmental objectives and targets to reduce environmental impacts and conform with compliance obligations;
- Establishing programs to meet these objectives and targets;
- Monitoring and measuring progress in achieving the objectives;
- Ensuring employees' environmental awareness and competence; and,
- Reviewing progress of the EMS and achieving improvements.

Highly qualified, dedicated and well-experienced faculty members of this department have made persistent and strenuous efforts. It also promotes the implementation of practical aspects of applied sciences and humanities in order to build a solid foundation as part of the engineering education.

THEME of FDP

Effective Office Administration (EOA) and Financial Management (FM) is sine-qua-non for the success of any organization in today's competitive world. Some of the important skills required for EOA can be identified as leadership qualities, communication skills, human resource management, financial management etc. In the globalised era, it has become imperative for all employees to upgrade their knowledge and skills on a regular basis to attain higher organizational as well as personal excellence. A major managerial challenge is to build a productive team and also to effectively manage and utilize available human resources so that individuals function efficiently.

OBJECTIVES

To provide an understanding on the concept of Effective Office Administration and Financial Management. / To help the participant to develop skills for teamwork and conflicts management. / To understand various aspects of Financial Management. / To provide the participants with an opportunity to share their experiences and also to understand different managerial styles.

It also promotes the implementation of practical aspects of applied sciences and humanities in order to build a solid foundation as part of the engineering education.

THEME OF FDP

Soft Skills like software are not directly visible; but their impact can be realized tangibly. Software enhances the performance and productivity of a system. Soft skills enhance the personality and human relations of an individual. This is one of the major reasons for the corporate sector, to lay emphasis on the acquisition of these skills by their personnel. Lack of these skill-set affect the confidence and output of the learners. Hence teachers need to be conversant with these skills to upgrade their learners.
