

Detailed Report

Activity- “One day Camp on General Awareness about Disaster & Disaster Management”

Scheme- Social Awareness & Welfare

Organized by- Civil Engineering Department

Disaster is a calamity of sudden happening. A disaster causing injury and death to a large number of people during a short span of time. Disasters have caused by reasons such as earthquakes, heavy rainfall, hurricane, chemical accident, drought, or even armed conflict. There is a huge change in climatic conditions on earth. Summer days are increasing and winters are decreasing. All these changes are leading to excessive natural disasters. Disaster management is a collective and coordinated effort. Everyone must take an active part in disaster management to reduce the risk of human life. The proper disaster management team can take charge as soon as possible when the disaster strikes. **“One day Camp on General Awareness about Disaster & Disaster Management”** was organized to make sure that students get to realise its importance. There were 62 participants and following steps were highlighted-

- Prevention is better than cure. We need to regulate necessary steps in infrastructure and maintenance to avoid getting affected by disasters. Negligence of maintenance and infrastructure in the buildings can lead to dreadful outcomes in the time of disaster.
- Though we can't prevent a disaster from happening, we can at least reduce the fallout of disasters. It is the duty of the government and other organizations to ensure safety when it comes to disaster management.
- During floods and landslides, it is the poor with weak infrastructure that suffers. Disaster management involves analysing the exposure to disasters.
- Students must be educated by professionals in the field of disaster management.

Concluding speech of our director ensured that he is fully confident that everyone sitting will remember this and will also help for spreading awareness among other citizens. It is necessary to solve this biggest problem related to nature and human life.
