

Detailed Report

Activity- “Villagers Awareness Program (Shahzadpur Farah, ShehzadpurPauri Village)”

Scheme- Beti Bachao Beti Padhao

Organized by- Eshan Female Teachers & NSS Girls Students

There always has been a difference in the child sex ratio in India due to our patriarchal society. Girls have always been a target of foeticide or infanticide, and many such cases still exist. This could be considered the main reason behind the launch of this campaign. The Government took the step to ensure the rights of every girl child across the country literally deserves admiration from the females across the country. We all should recognize the importance of femininity in this world and make a good difference in society by keeping both males and females on the same scale because the importance of both is equal in this world. Under the scheme of Beti Bachao Beti Padhao, **“Villagers Awareness Program (Shahzadpur Farah, ShehzadpurPauri Village)” on Beti Padhao Beti Bachao through talk & discussions was organized by Eshan Female Teachers & NSS Girls Students** where 40 participants were present.

Highlights of the talk delivered by our female faculty

- A few years back, this campaign was launched in India to address the declining sex ratio due to increasing crimes against girl children such as foeticide, infanticide, child trafficking, domestic violence, etc.
- This campaign aims at providing education, medical assistance, rights against discrimination, and equal job opportunities to the girl child, which is also a huge part of women's empowerment.
- This campaign can only be a success if every citizen will come together to give every girl a safer, fruitful, and better future.
- Not only the Government, but we all should recognize the prominence of a female on this land because our existence is just an outcome of their sacrifices.
- It is the best scheme ever as it reduces the tension among parents and will save the lives of present and future-born girls through this small investment on an annual basis.

The session ended with a pledge by male faculty and students to promote this campaign and work for females in India as every effort counts.
