From the Chairman Desk

It is said, that "If you are planning for a year, sow rice, if you are planning for a decade, plant trees, and if you are planning for a lifetime, educate people."

Today we are witnessing a colossal transformation in the world of education, with emphasis being laid on Skill-based education.

It would be right to say, that "Up-Skilling India" is the current slogan of the Nation.

Eshan Group of Institutions is moving ahead in the same direction. We are deeply committed to bring forward the best of our students' potential through our Skill-based curriculum & activities.

It has been a truly fulfilling journey till now. We have achieved, educated, inspired, and flourished and we strive to continue to do the same.

Remembering some very important words from Dr. APJ Abdul Kalam, that goes, "All of us do not have equal talents. But all of us are given equal opportunities to develop our talents"

We assure you that we shall keep providing you with such opportunities so that you can flourish and inspire too!

Diwali Celebration at Eshan City Office

YOUNG TEAM , YOUNG VISION

Our city team composed of young and bright minds are dedicatedly working in the interest of the students.

This team is a reflection of the innovation and dedication that our students can put forth in the service of their peers (that is you!)

Our city team is a resource working dedicatedly towards your benefit.

The team's young HRs are a part of a vast network of recruiters and job seekers.

With the college city team active 24/7, the students can benefit by always having a way to access counselling and find solutions to their respective problems.

CRITICAL THINKING AS THE NEW FACE OF EDUCATION

Education has had many faces up till now. It has been used as a way to train the mind to retain. It has been used to uphold and exercise faith.

Recently, it's been used as a tool to learn information and use it to achieve particular goals. However, the currently ongoing transformation in the field of education changes everything. Much of what kids learn today, and have been learning till now, would prove to be irrelevant by the year 2050. The only aspects of education that shall always pass the test of time, are adaptability, learning how to learn, resilience, curiosity, critical thinking, problem-solving, and effective collaboration. Students who have embraced these abilities even now are achieving wonders these very moments! We are living at a time where most information that can be memorised or is supposed to be retained can actually be extracted (or Googled!) in a couple of seconds. This both simplifies and makes difficult the effort that students ought to put in their self-education.

Today, students have information in the palm of their hands. And so what they need now, is to be able to make sense of the information, to determine what parts of the information are important and to be able to piece together all the little bits of information to form the bigger picture. This can be possible if students embrace the 4 C's of education which is, Critical thinking, communication, creativity, and collaboration. The ability to think, create, socialise, and collaborate is fundamental to a student's holistic development. And that's what we aim to achieve.

Students should understand that they are living in the golden reign of information and intellect. If your peers describe to you, the face of the mid-21st century, and it doesn't sound like science fiction, then they are not being true. However, if it does sound like science fiction, then you have found a more accurate picture of the mid-21st century. This is the century of innovations, creativity, transformations, and incredible discoveries! And it's all up to you to be at the centre of this miraculous change and guide us all to a better future.

The reign of the future is in your (the students) hands! Make the most of it.

Best Wishes,

Shubham

FROM THE EDITORIAL DESK

Dear Readers,

I hope you all are having a good year so far. I would like to begin this message with a gratitude note that the editorial board is really delighted & feels honored for the huge appreciation of the last issue. We look forward to your continuous support.

In the current issue of "The Eshan Times", we will recount the various events, achievements, and activities in the third quarter of 2021. I would like to offer a word of thanks to all the editorial team members & student coordinators for their team efforts. The Editorial Board takes this opportunity to acknowledge the kind support & encouragement by the Top Management & would also like to thank all the contributors for their support.

I wish you a pleasant time reading through the newsletter.

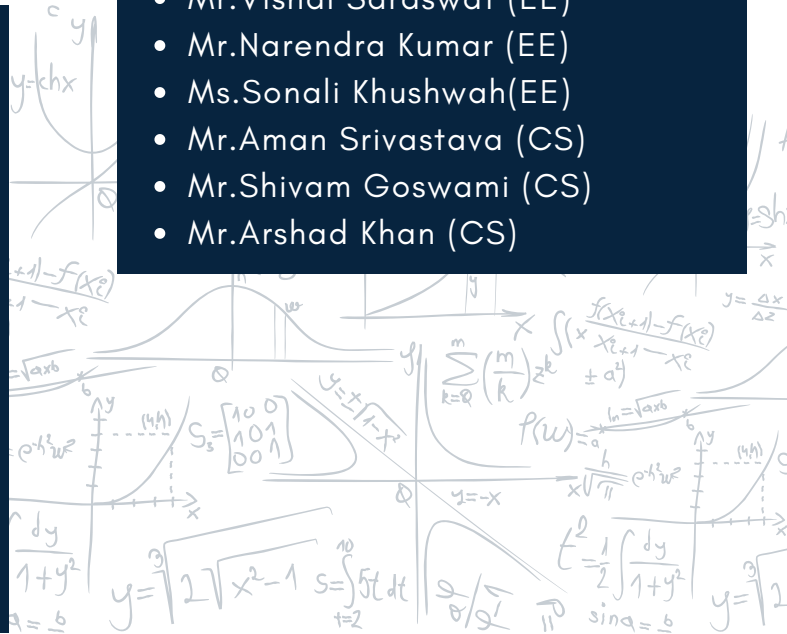

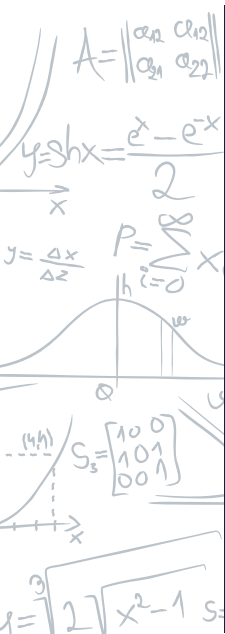

Happy Reading!!!

HOW WELL THE ECONOMY IS RECOVERING FROM THE PANDEMIC?

**SANJAY
AGARWAL**

Chartered Accountant
Company Secretary

The recent outbreak of the Covid-19 virus and the resultant pandemic took a major toll on the Indian economy. The country's GDP for the year 2021, fell by 7.3% owing to the pandemic. It was a tumultuous time for the economy.

And yet the economy is healing.

The Reserve Bank of India has forecasted a growth rate of 7.9% on the real GDP of the country for the year 2022.

The surge in industrial and service sector volumes after the second corona wave hit and the subsequent vaccine coverage instilled much-needed confidence.

The global supply chains are still recovering from their recent fractures and so, inflationary pressures are still on the rise.

However, the change is ongoing.
And the change is for the better.

The newly introduced government reforms, the latest approaches to economic activities, and most importantly, the newfound vigour common in each of us, are driving this change in a positive direction.

Today's students will play the most crucial role in uplifting the economy and the country.

FUTURE OF TECHNOLOGY AND INNOVATION

Factually speaking, the future is uncertain. In the future, we don't know if we'll cure cancer if the economy will improve, if we'll live in an algorithmic world, or if our cubical mates will be replaced by robots. Future visions for technology and science are both exciting and downright scary, but futurists can't offer us the facts of the future. Nevertheless, the uncertainty presents us with an opportunity.

- **The world of technology today**

We are immersed in technology from the moment we get up, to the moment we go to bed. As our digital lifestyles and technological world develops, the new normal is set to lead a highly digital life. Globally, about 50% of the population uses the internet, which results in over 3.5 billion daily searches on Google and over 570 new websites launched every minute, according to the International Telecommunication Union (ITU).

And what's even more mind-boggling? More than 90% of the data in the world was created in the last few years. In an era where data is growing more quickly than ever before, the future of technology is even more interesting than it is now.

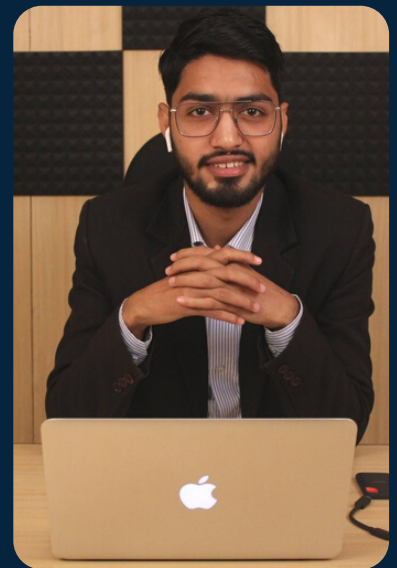

- **Keeping pace with the Digital transformation**

The rate at which data is being collected and our ability to analyze it is growing, businesses of all sizes will have to change how they operate. Companies that digitally transform will be able to offer seamless and frictionless experiences to their customers, and as a result, increase profitability. Let's take the banking industry, for instance. Recent reports show that 40% of Americans haven't stepped foot in a bank or credit union within the last six months, largely because of online and mobile banking.

Citi Bank's 2018 Mobile Banking Study found mobile banking to be one of the top three most-used apps by Americans. In the same vein, the Federal Reserve reported that more than half of U.S. adults with bank accounts have accessed their accounts via a mobile app in the last year, which presents forward-looking banks with a unique chance to enhance their relationship with their customers by offering a wider range of mobile services.

- **Be a part of the movement**

Digital disruption should be embraced as an opportunity instead of viewed as worrisome and challenging. Advances in new technologies, data analytics and artificial intelligence will bring uncertainty and potential for change. Technological progress provides us all with an opportunity to rethink the work we do and the way we do it. ***Will you take the opportunity?***

RIDE YOUR WAY TO FITNESS

Live better. Ride a bike....

Bikeathon is an effort initiated by iNEXT (now Dainik Jagran iNEXT) was powered by Eshan Group of Institutions, Mathura & others to promote cycling for good health. Chairman CA Saksham Agarwal as fitness enthusiastic very fondly participated in the event & conveyed the message to everyone to make fitness & cycling a habit which helps in maintaining a good health & build a strong immunity

स्वस्थ होना हमारे लिए सबसे बड़ा उपहार है। स्वास्थ्य ही सबसे बड़ी सम्पत्ति है और सबसे अच्छा रिश्ता है। – गौतम बुद्ध

A VISIT TO LEARN

Where theory meets practicality

An industrial visit to CFTI (CENTRAL FOOTWEAR TRAINING INSTITUTE) was the combined efforts of college authorities & the Department of Mechanical Engineering for the final year students of Mechanical. Motto behind this visit was to provide students a platform where they can have a practical exposure of latest manufacturing trends and learn about the ergonomics involved in thereby. Mr Sanatan Sahoo, Director, CFTI, Mr Bhatia, Senior Technical Officer, CFTI & Mr Narendra Pal, Instructor, CFTI has guided students throughout the visit, making them aware of the designing, modelling, stitching & packaging of footwear. A group of Students was accompanied by Mr Sushil Rai, Diploma Coordinator-ME & Mr Vineet Arora a faculty member of the department.

Topper's Academy

Students of the Semester...

We are pleased to announce the list of toppers based on latest external examination. All the students performed exceptionally well. We have achieved 100% result in B.Tech II semester. Out of them, 26 students achieved CGPA of more than 9 and almost 70% of students scored more than 80 % marks. Our final year students of all the streams also performed extremely well, overall we have achieved more than 99% result for the same. At least 176 students of the last semester of last year scored more than 80% & 77 students scored more than 85%. Chairman CA Saksham Agarwal said that this is certainly a big milestone that the college has achieved. He also added that college is pledged to give quality education to the students. We congratulate and appreciate all the toppers of the last semester for their wonderful performances. We wish you all the best for all your future endeavors.

TRAINING TESTIMONIALS

Practice to Perfect....

"Regular training programs divided under two heads :Departmental training including on hand practice of various software applications which is the current market demand of various companies & Cognitive skills training covering modules such as verbal ability, public speaking, analytical ability to name the few is incorporated within the timetable of various courses for all years of students to make them prepared for upcoming placements."

**-Training & Placement Team
Eshan Group of Institutions**

Training is absolutely an important element for developing the students to meet the industries recruitment process. Various Online/offline Training programs were organized by the college for the same. Below is the list stating each one of them:

- Online sessions were regularly conducted all along the months of July and August to help students practice for the written tests, group discussion, and personal interview and also to make them prepare for the various selection rounds of the company. The Resource persons for the same were Mr Vineet Arora, Mr Dauji Agarwal, Ms B.Sumbul & all the training & placement branch coordinators.
- A complete two-week training program from 9th September till 23rd September 2021 comprising mock GD and mock PI's was conducted. This schedule's objective was also to identify star-rated students of various departments and groom them up for the upcoming placement drives. The Resource persons for the sessions were Dr Pankaj Sharma, Mr.R. K. Vishwakarma, Dr Shailendra Gautam, Mr Vinay Gupta, Mr.R.S.Pathak, Mr Shailesh Kumar, Mr VineetArora, Mr Dauji Agarwal, Ms B.Sumbul & Ms Charu Sharma.

"It's not what you achieve, it's what you overcome. That's what defines your career."

- Carlton Fisk

PLACEMENT CONSTRUCT

Expanding the Opportunities.....

Training & Placement Officers Meet was organized by AKTU-UIIC at Eshan College of Engineering & Management on 1st October 2021. Programme Head (AKTU-UIIC) Mrs.Ekta Singh, Mohd. Azharuddin, Programme Manager-T & P (UIIC) visited the campus for the meet. Along with them Mr Amit Agrawal, Placement head of BSA College, Mathura, Placement Officer Ms B.Sumbul & Placement Coordinator, Ms Charu Sharma of

Eshan College of Engineering & Management, Mathura was present for the meet to discuss the new suggestions & reforms regarding training & placement opportunities for the students. Chairman CA Saksham Agarwal appreciated the meet & emphasized the fact that these mutual efforts will help to organize more placement drives in the coming years.

THE PLACEMENT CHRONICLES

Unfolding Opportunities.....

Campus placements provide the students with a foot-in-the-door opportunity, enabling them to start off their career right after they have completed their course curriculum. The Placement Cell of the college in association with AKTU-UIIC organized few Pool Campus drives & one on-campus drive. Chairman CA Saksham Agarwal congratulated all the placed students & encouraged placement cell to conduct more such drives. All the drives were successfully conducted under the aegis of Placement Officer Ms.B.Sumbul, Placement Coordinator Ms.Charu Sharma & all the other Branch Placement Coordinators. Highlights of the drives are:

POOL CAMPUS DRIVE

Prism Johnson Limited (Formerly Prism Cement Limited)

On 6th & 7th August 2021 company conducted final PI round in the college campus, where 21 students got placed. Program Head of AKTU-UIIC, Mrs. Ekta Singh was also present for the smooth running of the placement drive.

2. Signity Corporate Solution Pvt. Ltd:

An overwhelming response was received for the drive which was organized on 8th August 2021. More than 250 students from different institutes participated in the drive. The company has shortlisted 57 students of B.Tech & MBA of different Institutes, where 17 students were from our college. Program Head of AKTU-UIIC, Mrs. Ekta Singh was also present.

3. Just Dial Ltd & Mobiloitte Technology:

The Drive for both the companies was successfully conducted on 25th September, 2021. Approximately students from 12 colleges participated in the drive. Total 78 students from various colleges were selected, in which 31 students were from Eshan College.

ON CAMPUS DRIVE

1. KP Reliable Technique India Pvt. Ltd.:

An on-campus drive by the company was organized on 10 September, 2021. Almost 50 students from the college participated in the drive and among them total 21 students (B.Tech/Diploma-ME) got placed.

Success

"If opportunity doesn't knock, build a door."

ALUMNI SPEAK

The Incredible Stories....

We are again here with the two inspirational stories of our alumni told in their own words. Hope you enjoy reading this section.

Eyes on the goal

I always wanted to be self-dependent in my life. After completing graduation, I decided to pursue a professional degree to achieve my dreams. It was my mother who motivated me to take admission in MBA. But unfortunately, she died after some days after being depressed due to my father's death. At that point of my life, I was totally devastated, I lost my parents and have no money. I gathered my inner strength and decided to go for MBA & fulfill my mother's last dream. I started taking home tuition's & along with that I also worked as a teacher in nearby school. My salary was very less. I started doing savings & took admission in Eshan College of Management and was glad that I took first step towards the success of my goal. I paid all my fees in installments. During first Semester, because of my job I was not able to attend the classes regularly. This has affected my result and achieved backs in majority of the subjects. That time I thought I will not be able to complete the degree. I was so demoralized. Thanks to all my faculties who motivated me & advised me to attend the classes regularly. I decided to quit my job & started attending the classes regularly. Managing finance was still a challenge for me.

Ms. Ruksar Khan
MBA, HR
Lead for Revenue
Generation, Noida
Batch-2017 Pass Out

By 6:30 PM I used to get back home & took tuitions till late night. The money which I earned by this means helped me to submit my college fees. I was afraid to get the year back, but this fear became my strength. I worked hard for everything for money & for marks. I cleared all my backs & completed MBA with the first division. This was an achievement for me. After that, there was never a looking back. I started working with Mitzvah as an HR executive on a package of 1.4lakh. Worked there for a few years, got promoted, appreciated and then switched to another company & now I am working as an HR manager on a handsome package. After I lost my parents, my life was never easy but there is an old proverb that fits into my life ***“where there is a will there is the way”***.

Believe in the Possibilities ...

Er.Sagar Verma
Diploma & B.Tech (ME)
Assistant Associate,
Romsons Group Pvt. Ltd, Agra,
Batch 2018 Pass out

I have done Diploma as well as B.Tech(ME) from Eshan College of Engineering. From IV standard I completed my education through charity. Through this charity I have completed schooling. The policy of the NGO which provide charity was to achieve 80 % in 10+2 to continue the fund for the higher technical education, but I scored 75% & was not able to fulfill the condition. My father is a physically challenged person who did not had that much of earning to afford my tuition fees. Despite of the challenges, my spirit to go for the further education didn't broke. So I choose to go for Diploma in Mechanical Engineering instead of B.Tech which was again financed by my charity & finished the diploma with the flying colors. I was happy but I decided to fulfill my all-time desire to become a graduate engineer. I approached my NGO but due to high tuition fee of B.Tech they said they are unable to finance such a big amount. At that moment, I thought that this is the full stop to my dreams. I became disheartened but then I decided to spoke to Shri.Sanjay Agarwal Sir, Chairman of Governing Council. He listened everything patiently, and that moment became the unforgettable moment for me. I still remember his golden words:

"बेटा तू B.Tech कर, पढ़ाई पर ध्यान दे ,फ़ीस की चिंता मत कर." My struggle to pursue my dreams due to my financial constraint couldn't stop me.

For me affording Rs.80 each day to come to college by auto was quite expensive. Again, this hurdle couldn't stopped me to keep moving ahead towards my dreams. I started coming to college by cycle which is average 32 KM away from my home & also sometimes I took the lift from trucks & all, but my attendance never dropped. Here again college came as a savior for me, they provided me the free transportation facility. I felt myself so fortunate. That day my thought changed to ***"that there is nothing like a full stop in life, if you are determined enough & have strong will power to pursue your dreams"***. I would always be grateful to Sanjay Sir & Manjari Ma'am to support me in the thick & thins of my life. I am proud to be the part of Eshan & can very proudly say that Eshan is my Alma-Mater. I would also like to thank Ramendra Sir for motivating me throughout. I worked as a senior engineer in Automobile sector in Indo-Auto Tech, Faridabad & now in Romson's Agra as Assistant Associate.

ESHAN IN MEDIA

Leading the Way

It is always refreshing to read our college news in the Newspaper & feels great that the college is maintaining the upward momentum of positive work. College feels privileged and delighted to share that the news of college toppers has got the space in the local news segment. We once again congratulate all the toppers for their achievement. The Snapshots of the coverage are:

ईशान कॉलेज के बीटेक छात्रों का रहा जबरदस्त प्रदर्शन

आगरा। एकेटीयू की ओर से आयोजित बीटेक प्रथम वर्ष के द्वितीय सेमेस्टर के परीक्षा परिणाम में ईशान इंजीनियरिंग कॉलेज के छात्रों ने शत-प्रतिशत सफलता हासिल की। संस्था के 70 प्रतिशत छात्रों ने 80 प्रतिशत से अधिक अंक हासिल कर संस्था का नाम रोशन किया। संस्था के चेयरमैन सक्षम अग्रवाल ने यह कहा कि यह परिणाम निश्चित रूप से बड़ी उपलब्धि है।

एप्लाइड साइंस के विभागाध्यक्ष डॉ. शैलेंद्र गौतम ने इसका श्रेय कॉलेज प्रबंधन, शिक्षकों और छात्रों की मेहनत को दिया है।

संस्था के निदेशक डॉ. पंकज शर्मा, डीन और मैकेनिकल विभागाध्यक्ष इंजीनियर राजीव विश्वकर्मा, रजिस्ट्रार एसके सिंह, सिविल विभागाध्यक्ष इं. शैलेश, इलेक्ट्रिकल विभागाध्यक्ष इं. राजीव शंकर पाठक ने छात्रों को बधाई दी।

Milestones Achieved

A milestone can only be achieved when you have a relaxed mind and perform without any pressure.

एकेटीयू परीक्षा में शानदार प्रदर्शन

जासं, आगरा : ईशान कालेज आफ इंजीनियरिंग एंड मैनेजमेंट के विद्यार्थियों ने अब्दुल कलाम टेक्निकल विश्वविद्यालय की अंतिम सेमेस्टर की परीक्षा में शानदार प्रदर्शन किया है। संस्था का परिणाम 99 फीसद से अधिक रहा।

संस्था के 77 विद्यार्थियों ने 85 फीसद और 176 ने 80 फीसद से अधिक अंक पाए। चेयरमैन सक्षम अग्रवाल का कहना है कि संस्थान विद्यार्थियों के सर्वांगीण के लिए प्रतिबद्ध है। डीन राजीव विश्वकर्मा, रजिस्ट्रार एसके सिंह, शैलेश कुमार, डा. पंकज शर्मा, राजीव शंकर, विनय गुप्ता ने विद्यार्थियों को बधाई दी।

Excellent Academic Record

From studying a dedicated number of hours to a "no social-media policy" during exams, and sticking to books were the mantras of securing such an excellent result.

BE • THE DIFFERENCE

ESHAN has become a leader in the field of education. The institution is devoted to quality in the areas of teaching, learning, research, entrepreneurship, and leadership. Along with imparting knowledge and critical thinking, the Institution prepares its students to become the architects of the future. Besides engineering, the university offers courses such as MBA, B.Tech, M.Tech (CS), Polytechnic, Diploma (1 Year), ITI, BBA, and BCA. We are proud of our students' excellent placement record.

ESHAN INAUGURATES AGRA CITY OFFICE

Agra has a new city office inaugurated by Eshan. We are very excited and enthusiastic about our new office located on NH2 Bhagwan Talkies in the heart of Agra. CA Sanjay Agarwal (Chairman of the governing council) commented that such a venue demonstrates the collaboration between the institution and the students, which can lead to great synergies and benefits for the students. Young minds are powering the office, which mainly focuses on the skill development of the students.
